

May 26, 2013

Dear Sirs,

It has come to my attention that you are providing large numbers of links to the websites giganews.com and usenet.net, each of which infringes tens of thousands of my company's copyrighted images. To the best of my knowledge, they infringe the same images. At the beginning of this notice, I have attached one page of links that yandex.com provides to giganews.com, and one page of links that yandex.com provides to usenet.net. All of the links identified on those pages lead to infringing activity. Once one clicks on a particular link, one would need to pay a fee to subscribe to either website. Once that fee was paid, and the user also paid for the use of a "newsreader," they would then be able to download the same infringing Perfect 10 images from either website.

I obtained all the images in this notice as follows: On May 26, 2013, I did a search using Giganews' MIMO Newsreader on "Marisa Miller P10" (see the term in the browser bar on page 5). I obtained the sequence of infringing messages as shown on pages 5-6 from giganews.com. I then used Giganews' MIMO Newsreader to download the infringing images contained in those messages to my computer, removed duplicates, and printed the resulting full-size infringing images out as thumbnails shown on pages 7-8. All of the images shown on pages 7-8 of this notice infringe Perfect 10's copyrights.

At the end of the notice, I have attached authorized copies of most if not all of the identified images.

Please stop providing links to giganews.com or usenet.net, which I view as an act of contributory copyright infringement.

I have a good faith belief that the use of the Perfect 10 copyrighted material in the manner complained of in this email is not authorized by the copyright holder Perfect 10, its agent, or the law. The information in this notification is accurate. I swear under penalty of perjury that I am authorized to act on behalf of Perfect 10, Inc. the owner of the exclusive rights in the material which is being infringed.

Please contact me if you have any questions at all about this notice or need help locating the infringing material. If I do not hear from you within five days, I will assume that you believe that this notice is compliant under the DMCA.

Sincerely,

s /Norm Zada, Ph.D./

Norm Zada, Ph.D.

DMCA Notice Marisa Miller 5 26 2013.pdf

1.2 MB

Subject: Re: [Ticket#1305271043333523] DMCA Notice
From: Yandex.com Support <copyright-complaint@yandex-team.com>
Date: 5/27/2013 4:42 PM
To: normanz <normanz@earthlink.net>

Hello,

We are in receipt of your emails, dated May 26, 2013, claiming to be copyright infringement notices.

Your notices are deficient, among other reasons, because they fail to identify any Yandex search result that directly links to allegedly infringing content. Indeed, your notices recognize that none of the URLs you have identified are the location of any allegedly infringing material. Instead, your notices appear to be complaining that Yandex links to other subscription-based websites that have their own internal search functions for accessing content behind a paywall. Because your emails do not provide the specific location (like a web page or image URL, for example) of any allegedly infringing material linked to by Yandex, we are unable to take any further action in response to your email.

Your notices are also deficient because they are emails with an accompanying attachment of screenshots, which are unnecessary, insufficient and in compliance with applicable legal requirements and Yandex's policies referenced to below. If you wish to have links to allegedly infringing materials appearing on web search, image search or video search available at <http://www.yandex.com> domain and subdomains <http://images.yandex.com/> and <http://video.yandex.com/> blocked, please fill-in online form for copyright infringement notices indicated below.

Please be aware that in order for your notice to be processed in accordance with our policies available at the location referenced to below, you are required to provide the precise and complete textual URL at which the allegedly infringing material is located, in the text of your notice (not as embedded links in an attachment), as well as comply with other requirements specified in the policy. Your notices did not do so, and thus are defective. Please correct this deficiency in any future notices you may send. If you wish to complain about more than one alleged infringement in a notice, please provide the required information (including complete textual URLs) in list form, in the text of your notice.

Our policy with respect to taking down materials allegedly infringing copyright, as well as online form to be filled in for submission of the notices related to search services provided on Yandex.com may be found at: <http://feedback2.yandex.com/copyright-complaint/>. Alternatively, to submit your notices with respect to search service provided on Yandex.com you may use contact details of the Yandex Europe AG agent to receive notifications of claimed infringement in Terms of Service for <http://www.yandex.com> available at: <http://legal.yandex.com/termsofservice/>.

The policy applicable to search services provided on Yandex.ru domain related to taking down materials allegedly infringing copyright and relevant online form may be found at: <http://feedback2.yandex.ru/copyright-complaint/>. Alternatively, to submit your notices with respect to search services provided on Yandex.ru you may use contact details of the Yandex LLC agent to receive notifications of claimed infringement in Copyright Infringement Policy for <http://www.yandex.ru> available at: <http://legal.yandex.ru/copyright/?lang=en>.

Your notices are further inappropriate as they are sent to incorrect email address for receipt of copyright infringement notices as indicated in relevant policy referenced above for Yandex.com. If you would like to submit complaint via email with respect to

NOIR001839

Exh. 12, Pg. 13

5/27/2013 4:45 PM

search services provided on Yandex.com please use copyright-complaint@yandex-team.com email address instead of copyright@yandex-team.ru.

Additionally, to ensure the most expeditious processing, please use the webforms referenced above. By submitting your notice via any other means of transmission (such as email, fax or postal mail), you hereby understand and agree that Yandex's processing of same may be substantially delayed, and you further hereby consent without any objection to such slower processing time. Please note that for security reasons, Yandex does not accept emailed notifications that are accompanied by attachments. If you choose to send notices via email, please provide the required information in the body of your email to ensure processing. Please note that sending defective notices with screenshot attachments substantially delays Yandex's processing of those notices, and you further hereby consent without any objection to such slower processing time.

Sincerely yours,

Platon Shukin
Yandex customer support
